

PDD Workplan (2016-2019) – revised September 2018

This Draft Workplan lays out the outputs and activities that PDD seeks to implement in the time frame 2016-2019 under the Chairmanships of Germany and Bangladesh. The outputs and activities are presented according to the four Strategic Priorities making up PDD's Strategic Framework. This Workplan provides timelines and identifies the key stakeholders in charge of implementation of the proposed activities as well as the support Steering Group members may give.

All activities in this Workplan are supported, to different degrees, by the PDD Coordination Unit. In order to give the necessary support to regional and subregional level activities, secondments and/ or regional focal points shall be put into place. Interested stakeholders are invited to convene around themes of common interest or at the regional and subregional level. PDD focuses its regional activities primarily on: Central America, South America, East Africa, West Africa, South Asia, South East Asia, Pacific.

The PDD Communication Strategy will support all advocacy and information sharing objectives of this Workplan.

It must be noted that this Workplan is a living document in the sense that there will be room to include additional activities, if they satisfy the following criteria:

- In line with the Strategic Framework and Strategic Priorities of the Platform
- No duplication with existing activities
- Addressing a gap area
- Joint design and implementation across a variety of stakeholders
- Ideally at both global and regional level
- Accepted by the Chair of the Platform after consultation with the Coordination Unit

The Steering Group of the Platform will update the Workplan periodically. This version of the Workplan has been adopted by the Steering Group (composed by Australia, Bangladesh, Brazil, Canada, Costa Rica, European Union, Fiji, France, Germany, Kenya, Madagascar, Maldives, Mexico, Morocco, Philippines, Senegal, Switzerland) via silence procedure on 15 October 2018. It has been created by the Coordination Unit in cooperation with all actors mentioned in the table below as well as individual Advisory Committee Members with no organizational affiliations.
