UN MIGRATION

# 5<sup>th</sup> ANNIVERSARY COMMEMORATION

The governments of France and Fiji invite representatives from governments, the UN, civil society, academia and other partners to join a five-year commemoration of the adoption and endorsement of three policy frameworks relevant for the protection of disaster displaced persons around the world.

2015 saw the endorsement of the Nansen Initiative Protection Agenda, the adoption of the Sendai Framework for Disaster Risk Reduction and the Paris Agreement.

It is now time to assess the progress made. Where can we identify opportunities for scaling up action? How can actors ensure coherence and shared dialogue across these policy areas? How can the protection of disaster displaced persons be further strengthened?

Join us and register your participation for the high-level panel session here: <http://bit.ly/3ciEG5P> and for the technical panel sessions here: <http://bit.ly/3c8RCLr>
