**SIDE EVENT**

# BRIDGING COMMITMENTS: PROMOTING PATHWAYS FOR HUMAN MOBILITY IN THE CONTEXT OF DISASTER AND THE ADVERSE EFFECTS OF CLIMATE CHANGE

Join us for a compelling discussion on the intersection of human mobility, climate change, and disasters. This event will showcase new global and regional initiatives while promoting regional leadership and cooperation in disaster displacement governance. It will also catalyze dialogue and partnerships among states and stakeholders to find practical and effective policy solutions for protecting people on the move in the context of disasters, climate change and environmental degradation.
